Summary

Driven and detail-oriented Computer Science graduate with a solid foundation in data, analytics, programming, and IT systems, complemented by leadership and project management experience. Skilled in analyzing data, developing solutions, and managing technical projects. Known for a strong work ethic, adaptability, and eagerness to learn. I am seeking entry-level data and AI job opportunities to kickstart my career journey in the tech industry.

Experience

Junior System Engineer Intern Dec 2024 - Jul 2025
Solvento Philippines Inc. | Red Bottle Inc. Makati City, Metro Manila

- Completed intensive training with a strong focus on data infrastructures, including cloud-based data environments, server management, and data security practices.
- Gained hands-on experience with key tools and platforms such as AWS (IaaS), Cloudera, MS SQL, Linux, and Windows Server, with exposure to data storage, querying, and pipeline configuration.
- Acquired foundational expertise in AI systems and cloud-based AI applications, including AI agents and backend integration workflows.
- Utilized Docker Desktop to self-host and manage containerized AI tools (e.g., LM Studio, n8n) for efficient local testing and AI agent development.

Applications Developer (Work Immersion) Jan 2021 - Feb 2021
Creotec Philippines Inc. Biñan, Laguna

- Led a team of student developers in designing and implementing internal business applications, including payroll, attendance, and health checker mobile apps.
- Oversaw the IT department's operations, coordinated project tasks, and ensured the delivery of efficient, user-friendly systems used within business units made up of students across South Luzon.

Skills & Interests

- Programming & Scripting: Python, Bash, SQL
- Data & ML: Excel, MATLAB, Pandas, Numpy, Mathplotlib
- Cloud & TechOps: AWS IaaS, SQL Servers, Docker, Git, Linux
- Security & Infrastructure: Network security, Privilege and Access Management
- Team Management and Collaboration: Scrum-Agile Methodologies, Documentation

Education

Bachelor of Science in Computer Science Aug 2021 - Sept 2025
Far Eastern University - Alabang

- Magna Cum Laude - GPA: 3.72 (~94%)
- Top Performing Student (Dean's List) • 2021 - 2025
- Active Student Leader • 2022 -2024
- President's Scholar • 2021 - 2025
- Association for Computing Machinery, Secretary
- Google Developer Student Club, Member
- FEUA Student Coordination Council, Committee
- YouthMappers (OSM), Member

Certifications, Trainings, and Courses

- Data Analytics Essentials • 2025
Cisco
- Introduction to Data Science • 2025
Cisco
- Tech Infrastructure Training • 2025
Solvento Philippines & Red Bottle Inc.
- Python - IT Specialist • 2023
Pearson VUE
- Java - IT Specialist • 2022
Pearson VUE
- TOPCIT - Competency Level 3 • 2025
Ministry of Science and ICT, Republic of Korea
- Switching, Routing, and Wireless Essentials • 2024
Cisco
- Introduction to Networks • 2023
Cisco
- Linux Essentials • 2023
Cisco

Projects

REALTALK: Tagalog Speech Deepfake Detection System using Vision Transformer Algorithm (2024)

Capstone / Research Project

- An audio deepfake detection web-based system, localized for Tagalog speech, that employs a Vision Transformer-based model, utilizing mel-spectrograms for an audio-visual approach.
- Led project coordination and integration as Project Manager and Integration Lead, overseeing model development, data integration, and cross-functional collaboration to ensure successful research delivery.

TIMELINE: Optimization of On-Site Queueing Systems Through Utilization of Mobile & Accessible Technologies (2021)

Project Proposal with Prototype

- A hybrid queueing IoT system utilizing mobile and kiosk devices for an efficient and safer on-site queueing process amidst the COVID-19 pandemic. Won 2nd runner-up in Techathon 2022 hosted by Straive Philippines.
- Served as Project Manager and Documentation Lead, managing project timelines and team coordination while ensuring clear, comprehensive, and well-structured technical documentation throughout the research.
